

KREMER Marcel

(-)

(LU)

Biography

Four Luxembourg patents can be attributed to inventors named Marcel KREMER. They were filed in a relatively small time frame between 1946 and 1950.

A number of indications suggest that the inventions can be assigned to three different individuals by the name of Marcel KREMER:

- a resident of Weimerskirch (A)
- a chemist, resident of Schiffflange (B)
- a hairdresser, resident of Schiffflange (C)
