1 - Système de parapluie à fermeture automatique (Regenschirm mit selbstthätigem Verschluss)

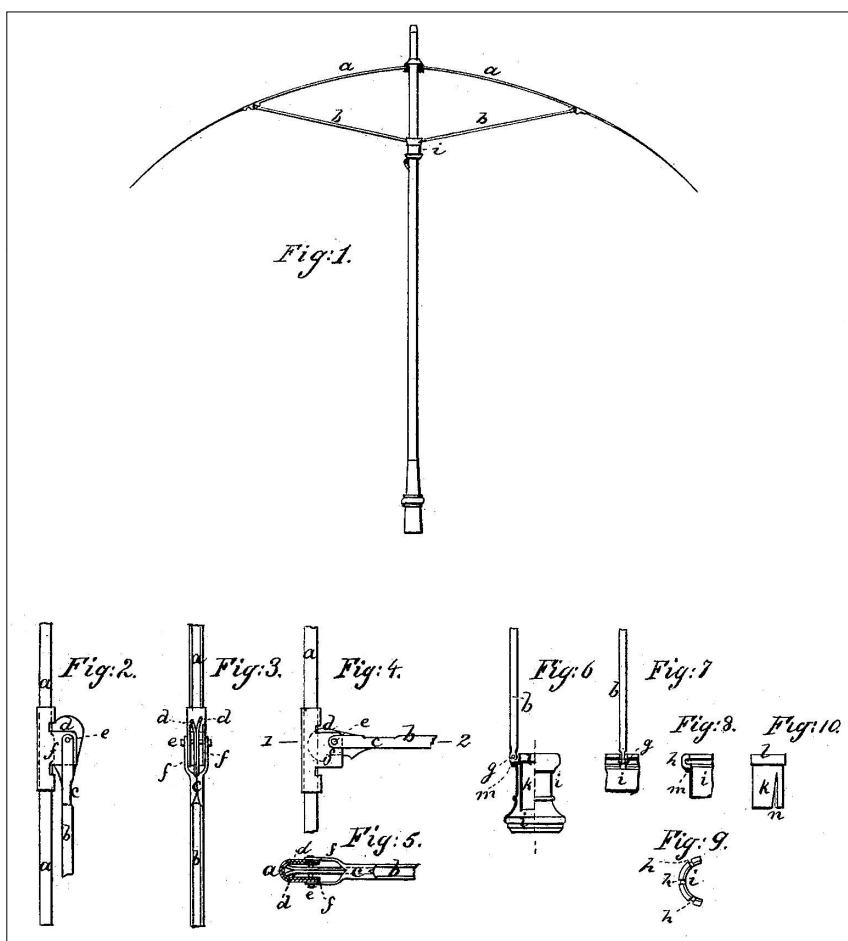

LU patent	34
Application date	19 June 1880
Application number	LUA286

FARRADESCHE had invented a “*Système et parapluie à fermeture automatique.*”

He had obtained a French patent, as well as a US patent for his invention. ¹

In his US patent the inventor explained:

This invention relates to improvements in umbrellas and sun-shades; and it consists, first, in a construction of a spring-joint uniting the ribs to the stretchers, whereby the stretchers and ribs are held snugly against the stick when the umbrella is closed ...

¹ US patent US235943

FARRADESCHE applied for a corresponding patent in Luxembourg under the 1817 Patent Law, and subsequently converted it to an application under the 1880 Patent Law.

The patent was granted on 28 July 1880 without examination.
